Zoom since 1 Jan 2016

ECB MONETARY POLICY QE

- **Accommodative monetary policy**
 - LTRO and ASP (European QE)
- **Emphasis on inflation but also restoring credit**
 - Targeted LTROs and negative rates for the deposit facility
- **Pragmatism**
 - Until September 2016 and "beyond if deemed necessary"
 - Flexible details, e.g. from 25% to 33% issuance
- **Sweden and UK similar strategy**

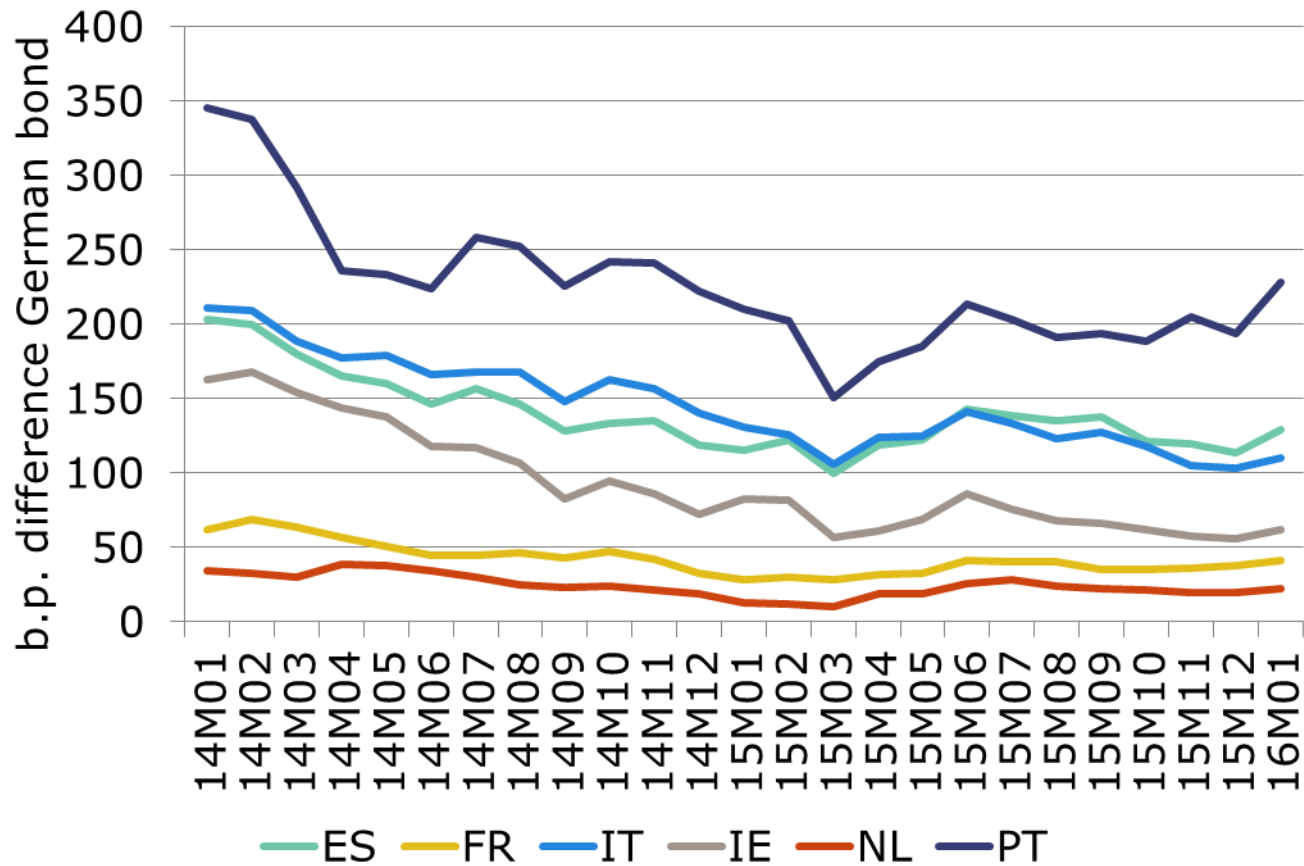

Exchange rate assumptions, forecasts 2014-16

Spreads

Risk premia

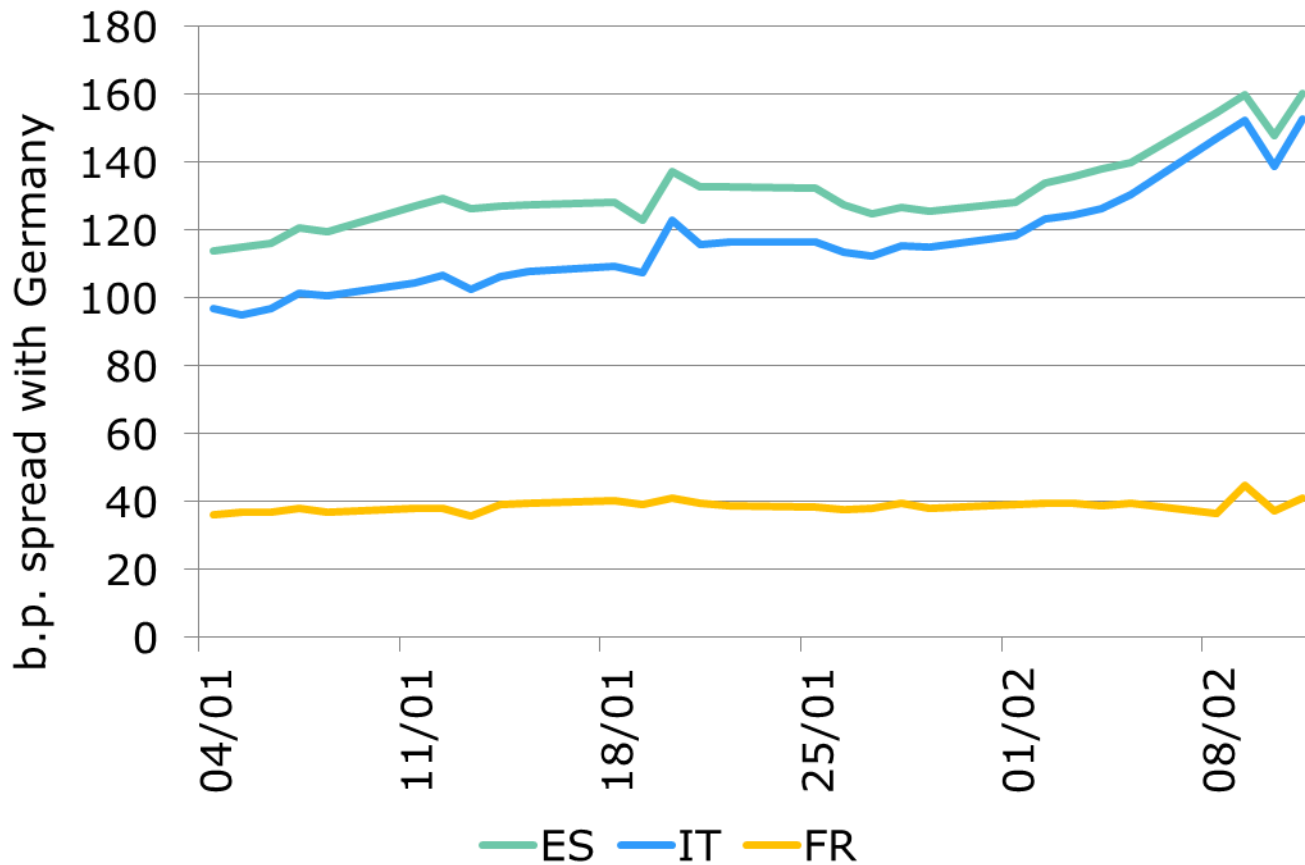

EMU convergence criterion bond yields

Spreads

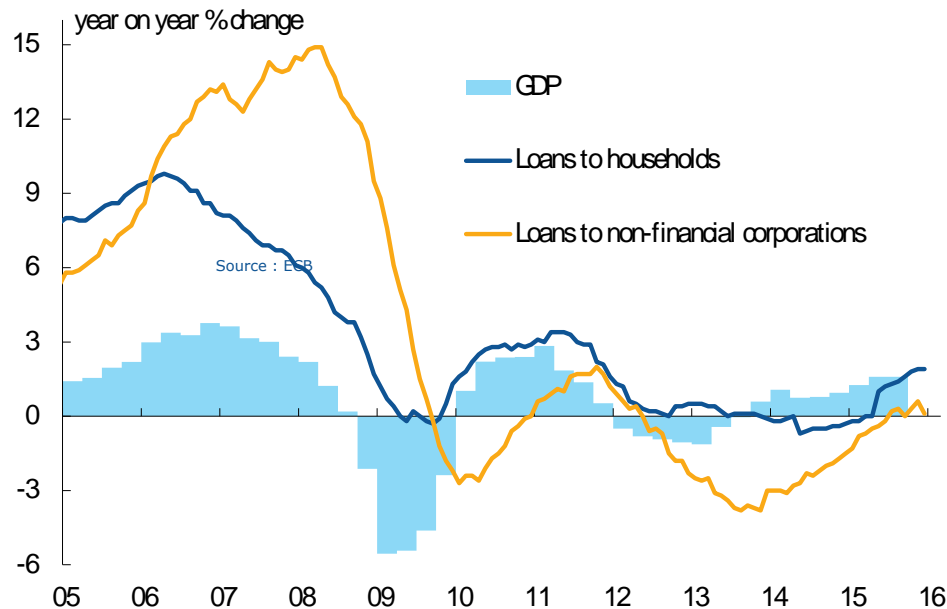

Risk premia

10-year sovereign bond yields spreads

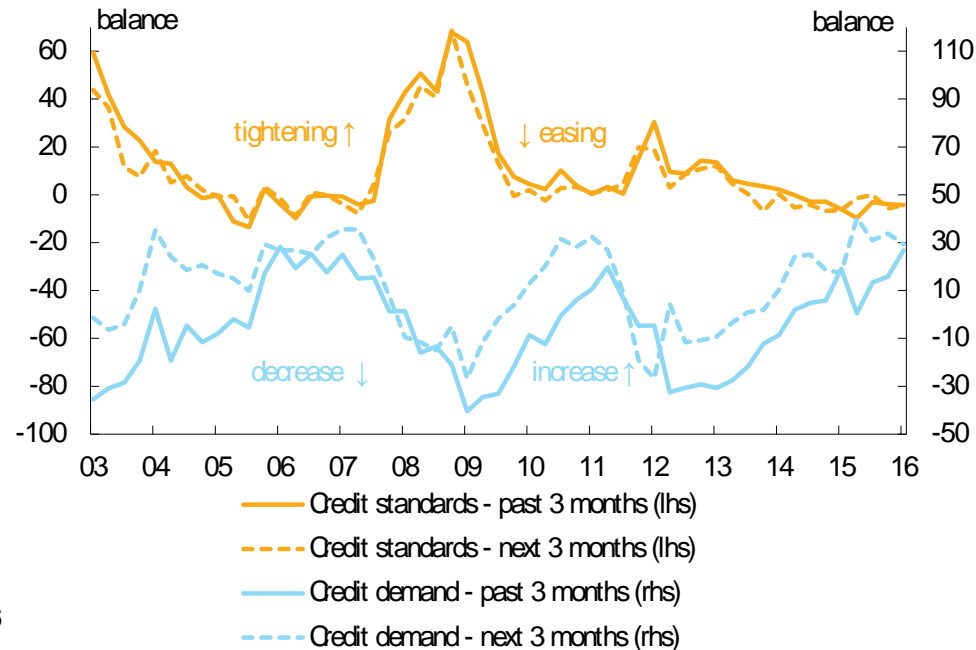

Financial conditions set to remain favourable for longer

Loans to households and NFCs, euro area

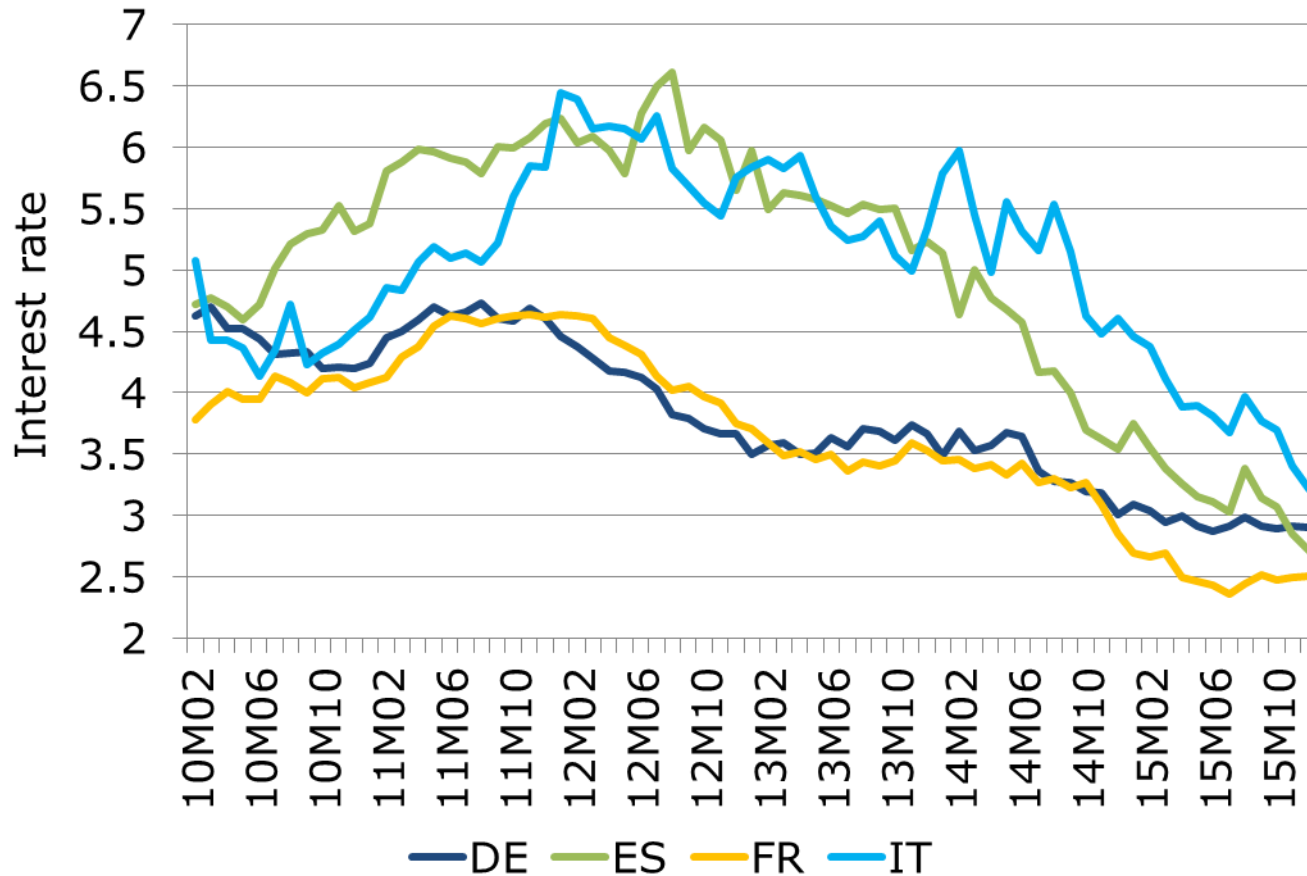

Net changes in credit standards and credit demand for loans to NFCs, EA

Fragmentation ends?

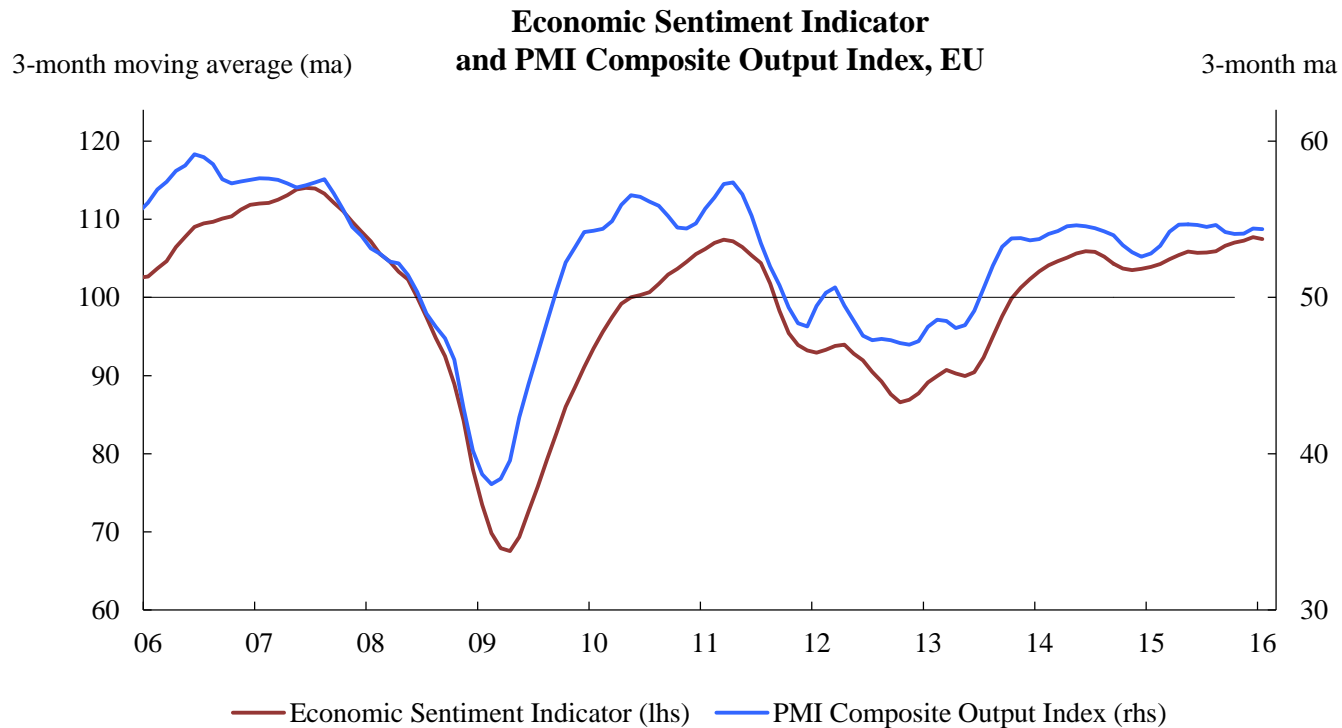

Cost of borrowing

Rate of loans to corporations, < 1 million, 1-5 years

ESI and PMI

A touch stronger in Q3 than in Q2

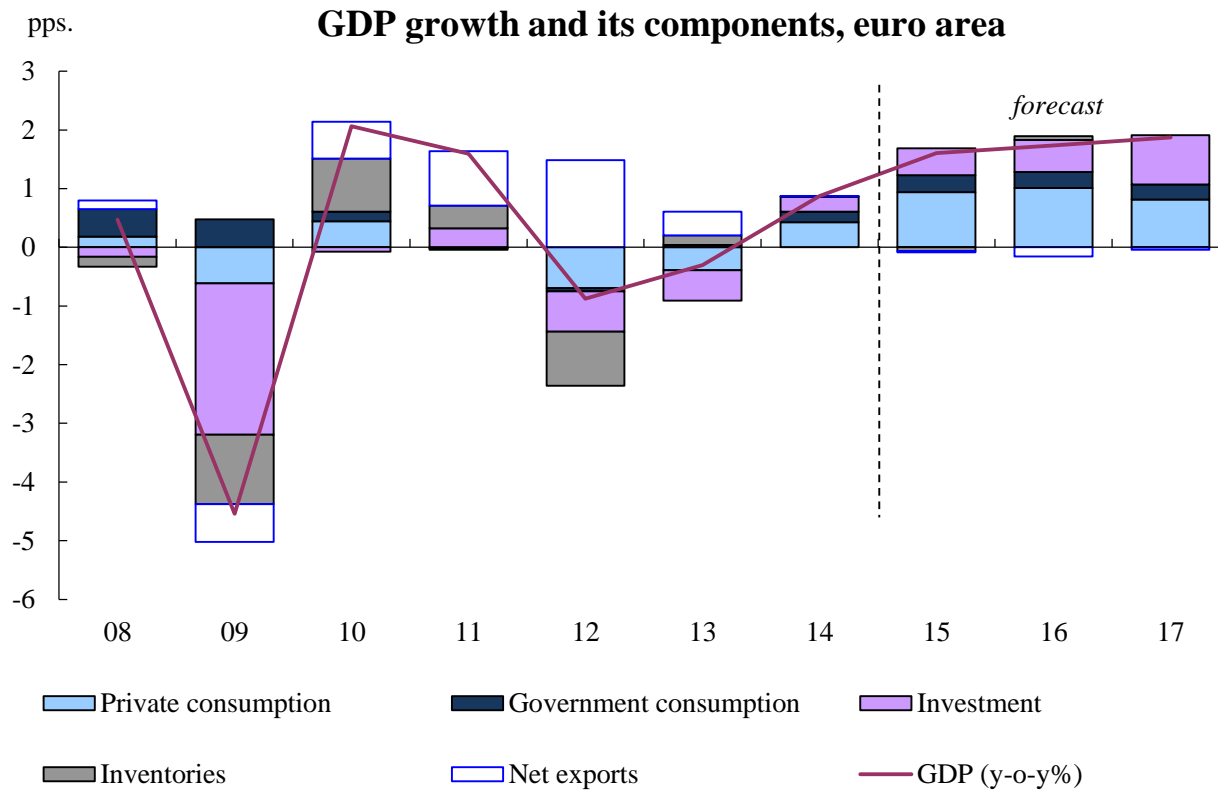

2016-2017 TAILWINDS FADE OUT AND ARE REPLACED BY OTHER FACTORS

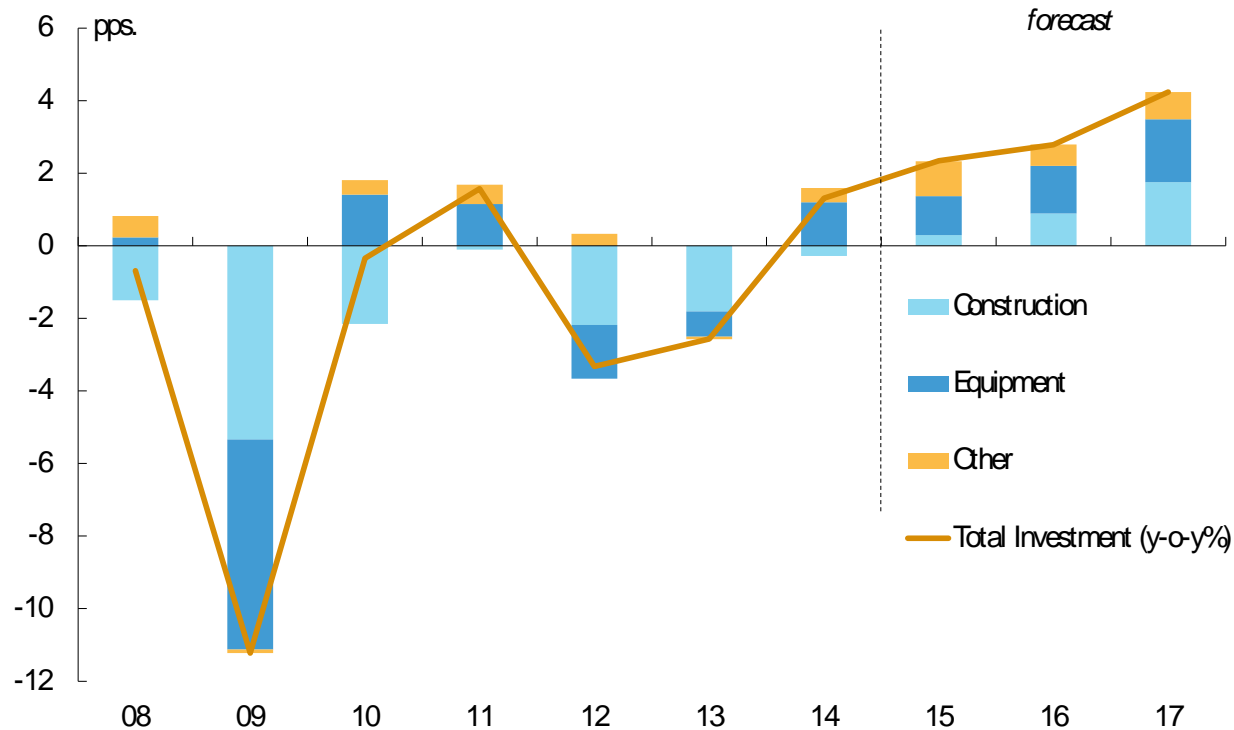

- **External demand will strengthen**
- **Overcoming of legacy crisis:**
 - Deleveraging needs will recede (lower HHs & NFCs debt)
 - Banking union
 - Easing credit conditions

GDP GROWTH 2008-2017

Recovery continues at a moderate pace

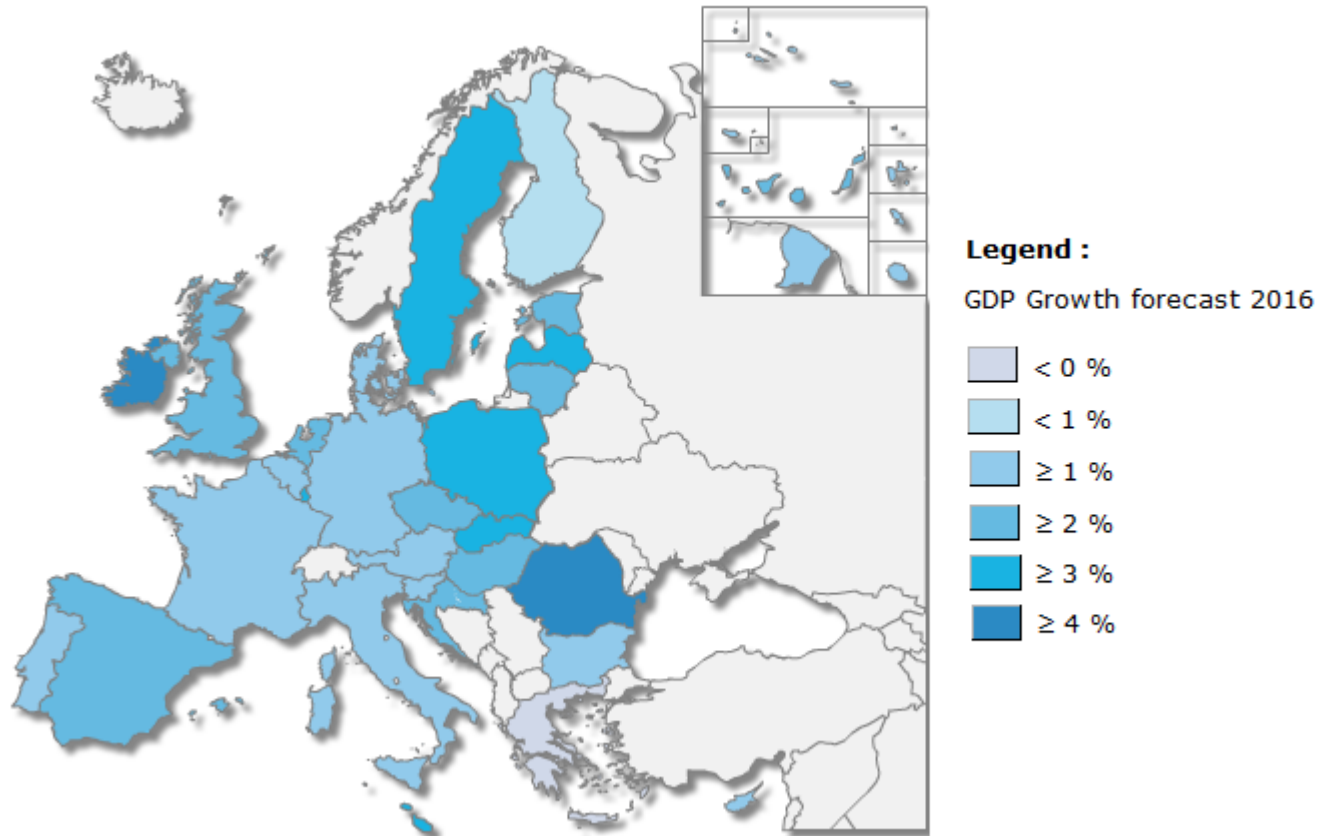

Conditions in place for a pick up in investment

Growth forecast

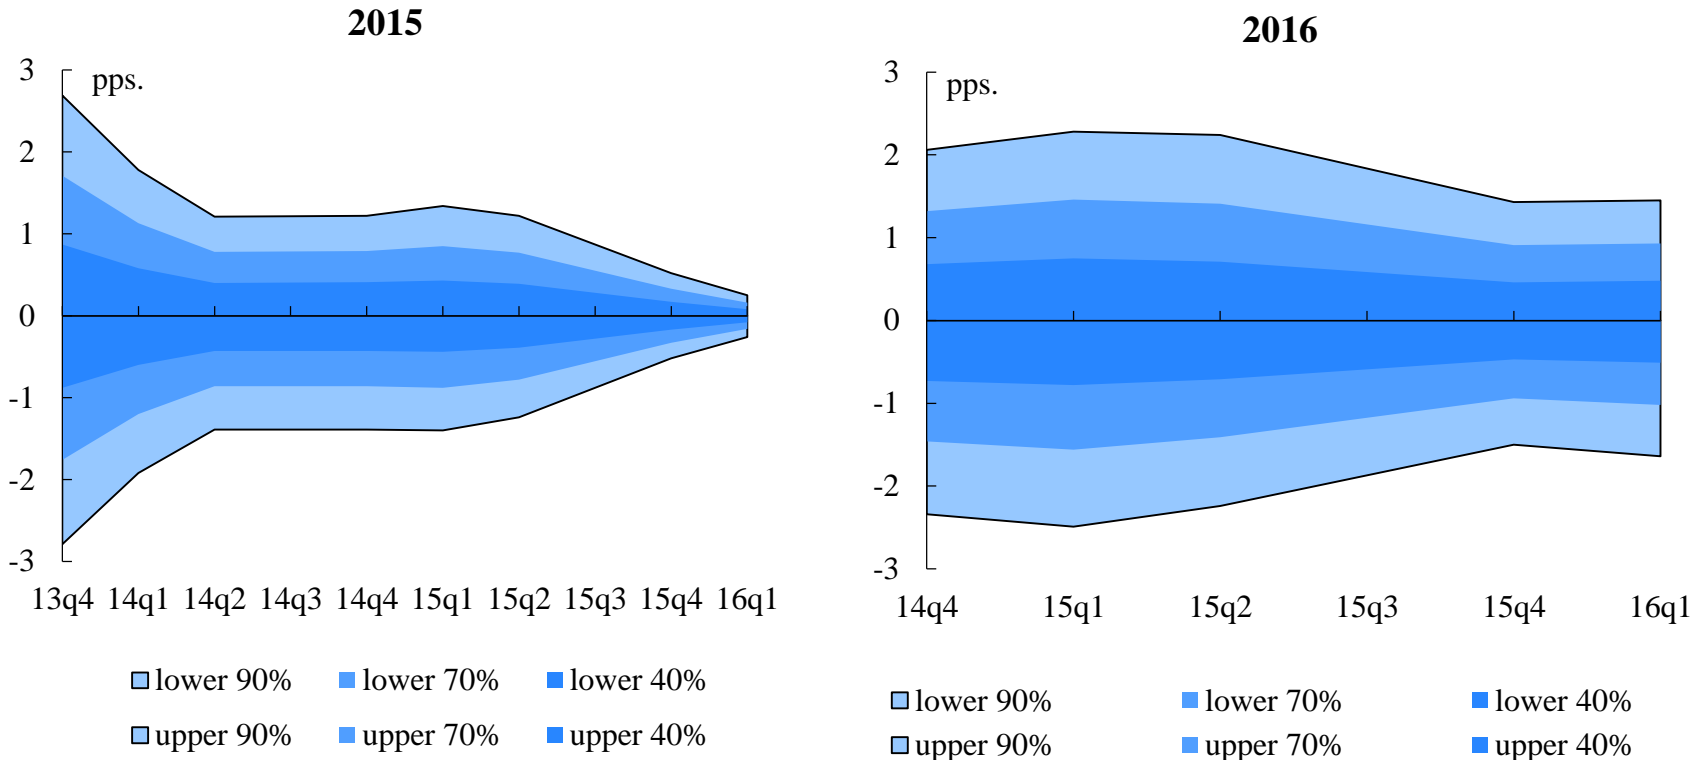

GDP growth rate Winter 2016 forecast

A forecast surrounded by risks

- (-) Stronger slowdown in China and emerging markets
- (-) Uncertainty regarding oil price assumptions
- (-) Geopolitical tensions
- (-) Policy/Political uncertainty within Europe
- (+) Stronger rebound in global growth
- (+) Larger / longer impact of 'tailwinds'
- (+) Impact of structural reforms

Evolution of risk assessments for EA growth outlook based on various ECFIN forecasts

Note: Fan chart data from winter, spring and autumn forecasts for first, second, and fourth quarters; interpolations for third quarters.

Comparisons

Real GDP growth forecasts for euro area Annual growth rate

	Date	2015	2016	2017
Commission	January 2016	1.60	1.70	1.90
IMF	January 2016	1.50 (-0.10)	1.70 (0.00)	1.70 (-0.20)
OECD	November 2015	1.50 (-0.10)	1.75 (0.05)	1.94 (0.04)
WB	January 2016	1.50 (-0.10)	1.70 (0.00)	1.70 (-0.20)
ECB	December 2015	1.60 (0.00)	1.70 (0.00)	1.90 (0.00)
